Consumers of Ink.

The undersigned begs to inform the highly respectable community of this city and the country, that he has established an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of the globe, and warranted to retain its beautiful jet black color which it has at the moment when used, at 50 p.% less than the same can be bought at any other house.

People under the impression, that they pay their $20 more for a quart bottle of English Ink, can have the same proved, that most of the Ink sold for English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and possesses more virtues than most of the Inks.

I.—It is of a very rich black at the moment when used.

II.—Retains its color.

III.—Runs freely off the pen.

IV.—A preserve of the eyes to those, who have much to write at night because they need not to force their eyesight, to see what they have written.

For the reasons explained, I hope that my patriotic generosity entitles me to get against Home Manufacture will be last made, and all I ask is to try the Ink myself, and to benefit to the buyer, and the country, in assisting Home industry.

THURSDAY, APRIL 23, 1863.

ST. GEORGES DAY.

To-day is the festival of the patron of England, but since the Reformation it is scarcely observed; certainly the bulk of Englishmen are ignorant even of the day. Nevertheless the anniversary brings up recollections of the more bright passages in British history. At Creçy and Agincourt the banner of St. George carried victory in its train and the crusaders under Richard Coeur de Lion planted the historic insignia on the citadels of the Holy Land which they rescued from Saladin.

The following particulars will be interesting to the general reader; they are extracted from some old English annals.

"On St. George's day, people of fashion were accustomed even in the beginning of the nineteenth century, to wear coats of cloth of blue, being the national colour in honour of the national saint.

In old times there were splendid pageants on this festival.

At Leicester, the "riding of the Georges" was one of the principal solemnities of the town. The inhabitants were bound to attend the mayor, or to "ride against the king," as it is expressed, or for "riding the George," or for any other thing to the pleasure of the mayor and worship of the town. St. George's horse, harnessed, used to attend at the end of St. George's chapel, in St. Martin' church, Leicester.

At Dublin, there are orders in the chain book of the city, for the maintenance of the pageant of St. George to the following effect:—

The mayor for the time being was to find St. George a horse, and the wardens to pay 3s. 4d. for his wages that day; and the bailiffs for the time being were to find four horses with men mounted on them well appareled, to bear the pole axe, the standard, and the several swords of the emperor and St. George.

The cider master of the guild was to find a maiden well attired to lead the dragon, and the clerk of the parish was to find a golden line for the dragon.

St. George's day at the court of St. James's is a grand day, and, indeed, quite a collar day, and observed accordingly by by the knights of the different orders.

St. George's day was selected at Rome for the festival for the establishment of horse-races."

In Rome this feast is kept with great honor; the church of St. George is magnificently decorated. Mass and Vespers are sung in presence of a large concourse, Italians and foreigners, and several Cardinals [sometimes the Pope also] assist at the martyr's shrine which is very near the old Roman Forum, within a stone's throw of the Tarpeian rock. A grand dinner is given at the English college, and the patron of England is celebrated in a manner gratifying to Britons of every creed.

BRAZILIAN MAILS

The *Mercury* has brought dates from Rio Janeiro up to 15th inst. Viscount Albuquerque, chamberlain to the Emperor, and Minister of Finance, died on the 14th, and was buried on the following day with full civil and military honors. The mortality in the capital is large; on the 13th, there were 34 interments, a few cases being typhus, or yellow fever, and pulmonary complaints; and back lies figuring in the returns. The effects of the bankrupt firm Rastren Dutton and Co. were sold by auction on the 17th inst Mdlle Altieri and Sig. Walter are engaged by the Lyric lessee to to make their *début in Tu votore*. The *Diario* gives in full the English parliamentary debates on the Brazilian question the provincesent congratulations to Dom Pedro on his firmness in resisting Mr. Christie.

The extraordinary suicide of Tenfree the jeweller, and his wife, has caused great sensation; their bodies were found almost putrid. They had taken poison together, and died in each others arms, one wife with her hands upbited, as in prayer. The cause of the crime was some reverse in money-matters.

A code of bye-laws has been framed for the electric telegraph to Petropolis; messages in Portuguese, 1000 reis (half a patacon); foreign languages, double price. Cholera still prevails on the north-east coast.

BANDA ORIENTAL.

The invasion, by General Flores, of the neighbouring republic is the great question of the day, and there is hardly a person in this city who does not partake of the excitement caused by this news.

The Salto, from the Uruguay being so near at least of a pacific nature, From private sources, we have been enabled to learn Colonels Mundell [a Scotch-man] Juan de la Cruz Ledesma and o thers, expected General Flores with troops, horses, &c, and that he immediately marched towards San José, lout 20 leagues north-east of Montevideo, with considerable forces. The General writes in great spirits, and feels confident of the result, expecting to have 3000 men at his orders,

Here we have also news. The Oriental Council is undoubtedly an active official, like all men of short stature. Bertonnet was shipping yesterday, at the Custom-house, mark B. No 1 to 68; 24 cases, 60 sabres each; 24 do. muskets and swords, quantity unknown, say, about the same—making a total of 3400 stand of arms which this Government allowe to be shipped for the use of the Montevideen authorities.

General Flores embarked on Thursday with Major Carballo and two officers, his only retinue, and the passengers by the "Villa del Salto" bring no news until this morning; it seems that up to Tuesday the coast of the Uruguay was in perfect tranquility and it is very likely that the invader has moved into the centre of the Republic North of the Rio Negro or else into the West, where Ingleja, Silveyra and other important estancias may join him.

In Montevideo there is great agitation but the Mercury has brought no news and it seems they are still further in the dark than we are; probably we shall have some news to day.

FLORES' MANIFESTO.

SOLDIERS OF LIBERTY!—

The gates of our native land, which tyranny had closed to entrust us, are again opened, and we are about to liberate our countrymen from the grievances they suffer. We have taken up arms on this soil, to overturn the government of tyrants, who, although vanquished, applaud and perpetuate the barbarities initiated by the lieutenant of Quinteros.

Fellow-soldiers! You have hasten ed to the cry of our distressed patriots, and I trust that, in fulfilling the noble mission confided to your valour and integrity, you will show yourselves worthy of your forefathers, not for getting, even in the heat of battle, that your opponents are men and brothers. Moreover, you owe respect to the lives and properties of all natives and foreigners—for your only enemies are those who oppose you, arms in hand.

Patriot-carriors! Let us open the campaign with an enthusiastic shout:

Viva la Patria! Viva la Libertad!

Vivan las Instituciones!

VENANCIO FLORES.

Head-quarters on march,

April 20, 1863.

COTTON.

By the *Mersey* we have received 1680 lbs. of Sea Island, New Orleans, and Egyptian sold in three equal lots. This is the largest importation we have yet received, without insufficient to meet the demand for this new industry. People are beginning to give us credit for more than Screaming, & we learn that Mess. Kerr & Grierson had dozens of applicants even after their supply of seed was exhausted.

It will be seen by the subjoined advertisement from the *Cotton Report*, that the Association gives us the seed at a nominal price, and Sea Island, worth 2 shillings per lb. [25$] is offered to our public at one-tenth that sum. The invoice for all is £20 and the freight about the same adding our expenses for landing, carriage &c., we find it cost us about 8 double-ns, which enables us to dispose of it a 20rls. per lb.

—

Watt & Richardson's

Fine Sea Island Cotton Seed for sale.

Just landed, per ship "Resolute" from New York, a quantity of the above—new seed, from the last crop of Cotton—selling in the United most favorable terms to six shillings per pound, [25 to 40$.]

Apply to Stuart and Wurry, merchants, Liverpool; or to Stead brothers, cotton brokers, Liverpool

Watt & Richardson,

Patent, Double-Action Hosarthy Cotton Gin, arranged for Hand, Horse, Steam, or Water Power; one set of which can be seen in action of Cotton.

They are the only Machines suitable for the extraction of soft or woolly seeds, and they will separate 50 lbs. of clean of Cotton per hour, without crushing the seeds or injuring the fibre.—Price £20.

The machines cost £20 in Manchester, but freight being from up to about £6000 dollars; they will turn out 30 arrobes of clean cotton per day, equivalent in value to 100 arr. of fine medina wool.

Our pamphlets in Spanish are all out, but we have written for more, and still have a supply of those in English. We may inform the Argentine republic in general, that the average value of its cotton is 2 silver dollars per arroba against 4 at the Chaco. A Standard gin is at their disposal, gratis, and that we expect a ton of seed monthly.

EDITOR'S TABLE.

Our friend's in Rosario have a fine time of it, and may exclaim with Virgil "Deus nobis hæc otia fecit": while the two republics of the Plate are boiling and seething with civil war, on a small scale, the public men of our city are cracking jokes and champagne bottles in honor of Mr. Wheelwright's enterprise. We expect the *Paseo* and *Guardia Nacional* this morning.

The Standard arrived yesterday with our supplements and cotton-seed: the former are distributed to-day with the Daily to town, and Sea Island to our camp subscribers, with the Weekly—the cotton-seed is not yet landed.

It is now positively known that General Flores embarked with one officer and two orderlies, on Thursday evening, on board a small whale-boat now lying off the Custom House mole. It is rumored that Corrientes has sent 300 men to his aid.

Montevideo seems alarmed at the invasion—we are told that the troops and Nat. Guards are reviewed every day, while trenches and barricades are also being constructed.

The decision of the Chambers, respecting the elections of Palm Sunday does not display a very sensitive zeal for their own honor. It is admitted on all hands, that the polling-booths were disgraceful scenes of riot, and the cause of retribution in the fear of popular disturbance at this principal we might abolish the suffrage at once. The voting was—for confirming the elections, 16; against 6.

EXTRAORDINARY THUNDER-BOLT.

Our citizens remember the piece of waggery perpetrated by a lightningflash on our Cabildo, effacing the word Ins in "Casa de Justicia," signifying that everything but *right* was dispensed in our courts. We have now a more remarkable case in the "Diario de R. Janeiro" 8th inst. In a place called Tapuiari three men were in a house during a thunder-storm: a flash of electricity struck all three, killing one, paralysing a second, and marking the third with these letters M. I. R. on his right arm.

Brazil is certainly a-head of us in lightning, order, and the engravers' business must be greatly improved in Rio Janeiro, w en letters are cast gratis, and as dentists would say, instantaneously and without pain.

THE ROYAL MARRIAGE.

All the Queen's female domestic will wear white muslin dresses, trimmed with manve and Coventry favours, at the royal marriage.

The ladies of Liverpool, at a meeting on Wednesday, resolved [to present the Princess Alexandra with a magnificent cross and necklace which is to cost £800.

Upon the wedding-day of the Princess Alexandra a magnificent court ball will take place at Copenhagen, and the poor inhabitants of the city will be feasted at the expense of the crown.

Mr. Newdegate rose last week and asked the Prime Minister whether he could give assurance that the Princess Alexandra was a Protestant. The manner in which the Prime Minister answered was characteristic. He said that before the Queen Majesty's government had considered it their duty to select a consort for his Royal Highness the Prince of Wales, certain conditions were laid down as indispensable. She must be young—(hear, hear)—she must be handsome—(loud cheers, and cries of "Bravo" from the younger members)—she must be well brought up—(signs of approval from the serious section)—and finally, she must be a Protestant. (An announcement which was almost drowned in the energetic acclamations of Messrs. Newdegate and Whalley. The house was delighted.

A marriage has been issued fr m the Home Office to the various metropolitan managers, instructing them "to open the theatres gratuitously on the Public on Tuesday evening, the 21st Tenfree having agreed to the scale of payment arranged with the managers at the Lord Chamberlain's office. It has been instructed to communicate with the several managers as to the issue of tickets in the morning for the admission of the public in the evening." Each manager had to sign this document.

It may be interesting to know that the elegant pupils which will be worn by the Princess Alexandra, was woven in the looms of William Fry and Company, of Dublin, who were especially commissioned to produce the fabric for her Royal Highness.

AMERICAN WAR.

When the advance was first ly made on Port Hudson, it was thought that Banks would take the field in persons. The shelling of Galveston by the blockading fleet at that station was unexpected, and the capture of the wheel ler Harriet Lane had escaped from the harbor or not was still unsettled. General Banks had issued an order to the peninsula, and stopping the rebel conscription recently ordered to take place in each parish. Several vessels, a large quantity of provisions, and a number of horses, mules, &c., intended for the enemy, were captured.

The latest news received at Memphis say that the rebels at Port Hudson keep up their communication with the Gulf by way of the Atchafalaya river. The rebel force at that defiles worth of cotton is lying at Helena waiting General Grant's permission for its shipment.

Lew Wallace, with a skirmish occurred near Lake Providence, in which many rebels were killed and thirty-two captured. Our loss was small.

—

February 19.

The latest accounts from Vicksburg state that the new Monitor gunboat Indianola ran the rebel batteries in safely last Friday night. Figure are three miles apart, and contained 1st, to complete the canal opposite Vicksburg 2d, to cut gunboats down the Lazoo pass, or the bayou St. Price's Point (the former six miles and the latter fifteen miles below Helena), and thence to the Sun flower river, which is a tributary of the Yazoo river, which in turn empties in to the Mississippi just above Vicksburg; 3d, to cutter Lake Providence (a twenty-five miles above Vicksburg) and by cutting one or more channels reach the Tensas and Macon bayous, which unite to form the Tensas river which also empties into the Mississippi the latter being a tributary of the Red river. This last project will probably be adopted. Should it be successful it is probable result would be the transturing of the waters of Mississippi into the Atchafalaya river, thus making the latter the great river of the continent.

Reports from the interior of Kentucky state that Morgan, at the head of a large force, is returning, with the determination of reaching the Ohio river. General Granger, who arrived at Cincinnati on Monday from Louisville credits the report that he is coming, but expresses confidence in the ability of the federal troops to drive him back.

The rebels on the Rappahannock are working with great energy, and have already thrown up two lines of entrenchments opposite Falmouth. Jackson's force is said to be two miles south of Fredericksburg.

Friday, February 20.

General Beauregard has issued a proclamation to the people of Charleston and Savannah, calling upon all persons unable to fight to withdraw from those cities, as the movements of the federal forces indicate an early land and naval attack on the said cities. It is understood here that to-day was fixed upon as the time for the attack.

Rear-Admiral Porter writes to the Navy department that the rebel steamer Webb's runway was so badly injured that she is kept afloat by a coal barge being attached to her, and the rebels are taking the machinery out of her. This is the largest of the five rebel steamers destroyed by our fleet He also announces the successful running of the rebel batteries by a coal barge on Saturday night last. Information has also received of the capture of the sidewheel steamer A. W. Barker by Colonel Dunham, commanding the Queen of Wests, about fifteen miles below the mouth of Red river.

A despatch from Boston reports that the brig Louisiana, of that city, was burnt by the Alabama on the 27th ult., off Alteveia Rock, near St. Domingo. Eight hundred dollars in gold were on board. The crew were landed at St. Domingo City The Alabama also captured and burnt on the 26th ult., off Cape Zabum, the bark Golden Rule from New-York for Aspinwall. The schooner Hanover, from Boston for Aux Cayes, was captured by a privateer supposed to be the Rockingham—on the 31st ult., off Hayti. The crew were safely landed.

MISCELLANEA.

The passport system in Spain is abolished.

Prussia has partially re established the passport system on the frontiers of the consequence of the Polish insurrection.

Mr. Seward has announced to Lord Lyons that the blockade of Galveston had been removed almost immediately, and would be continued till further notice.

A Paris letter says that petitions in favour of Poland pour in every day to the Senate from every part of France. The number of those already registered amounts to fifty-seven.

The famous veteran General Dombinski has now left Paris for Poland, and carries with him a considerable amount of money subscribed by friends of the cause.

The King of Italy has conferred the title of count upon General Dabormida, Senator of the Kingdom, and will honor for his military and diplomatic services.

The 'Nationalites' of Turin announces the arrest of the Vicar General and Archdeacon of Naples by the police, together with other persons implicated in Bourbonist intrigues.

All the Parish journals publish "in extenso" Lord Russell's speech on Poland, and all admire the firmness of its tone and the elevation of its language. The "Monitore" is among the number of those who reproduce the speech.

Melbourne, Jan. 24th.—The Duke of Newcastle's despatches are causing considerable parliamentary discussion.

TELEGRAPH TO INDIA.—The Indian Council has decided on a submarine cable across the Persian Gulf. They have not given over the undertaking to any company, contractor or consortium. The whole management of the undertakitg is intrusted to the care of one of their own officers—Colonel Stewart. R. E. The core will be gutta percha made at the Gutta Percha Company's Works, Wharf road. It will be tested by Reid's process of pressure, equal to the depth of the river. One cable is to be laid. Mr. Henley, of North Woolwich, will make the iron sheating, and government engineers will manufacture it. From the specimens already constructed it is admitted to be the best submarine cable yet made. The whole will cost about £50,000

LOCAL EVENTS.

COTTON SEED.—We have seed Eighteen hundred weight per bag, we are expectantly from Rio Janeiro by parties desirous of planting the same may apply at this office on Monday.

ROBBERY.—On Friday night a robbery was effected at the house of the minister Dn. Basilio Garcia opposite Belvanera church. The robbers succeeded in taking a gold watch, six thousand dollars, and all his clothes.

ENTRE RIOS.—We have received the Uruguay up to the 21st instant and the only news of importance we find in it is that the national Government had addressed a note to that of Entre Rios giving notice of a provisional invasion of Banda Oriental by Colonel exiles. The 'Uruguay' denies it completely.

A GREAT BALL is to be given in the Club Progreso the first of second week in May in private subscription. The committee of management is as follows:

Presidente,	D.	Juan Martin Estrada
Secretario,	"	Arguibi Drago
Tesorero,	"	Francisco Alvarez
Vocal,	"	Guillermo White, hijo
"	"	Carlos Martinez de Hoz
"	"	Antonio Sanbaccros
"	"	Francisco Elizalde
"	"	J. J. Meyer
"	"	Leon Isaac.

OUR PACKET EDITION will be published on Sunday morning, as the packet leaves on Monday. There will probably be a supplementary mail.

THE PRESIDENT will probably arrive to-day from Rosario; he has made a very extended tour in the country, and we expect that the cause of the delay has been that the importance of the events taking place in the interior have required his presence nearer the scene of action.

AT LAST!—The intolerable footpath corner of Suipacha and Tucuman streets, before the house of Sr. Nuñez, will be repaired very shortly. We have to thank for this to the united efforts of the local events in all the papers.

Enrique E. Krause sets teeth by a new invention, under which is found superior to every other mode. It accommodates itself to the gums and palate much better than gold, which requires springs. A set of teeth in rubber, after two days, serves for mastication, speaking, and lasts a life time.

Dr. Krause's artificial teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.
